University

Food&Health Webinar series

In the framework of the strategic collaboration
between the

**University of Padova and Monash University
(Australia)**

A series of six seminars is offered to students of
both institutions.

Take the best out of it!

13/04/2022 at 8.00 am (CET) // 4.00 pm (AEDT) - Prof. Valeria Paganizza

- **Novel food: a regulatory approach**

The lecture will help students understanding novel foods are and how they could be presented on the market according to the relevant provisions. A comparative approach on different legal systems and requirements will be used.

11/05/2022 at 8.00 am (CET) // 4.00 pm (AEDT) - Prof. Francesco Marinello

- **Blockchain traceability**

The lecture will provide a definition and explanation of “blockchain”, letting students understand how it can be implemented for food traceability. Some case studies will be presented.

25/05/2022 at 8:00 am (CET) // 4.00 pm(AEDT) - Prof. Luca Busetto

- **Obesity: overcoming disease stigma and therapeutic inertia**

The lecture will help students understand obesity, intended as a “complex, chronic disease with strong biological bases” and how it can be tackled in way that differs from the common simplistic methods that often result in a therapeutic inertia.
